May 15, 2025

Thanks for considering the purchase of PBCPR! Our business has grown in the last 10 years, but we are planning new adventures soon.

PBCPR offers CPR/AED/First Aid and advanced classes. Instructors are all independent contract personnel. Classes are offered in our classroom and on site, depending on client need and size of class. Current owners will provide necessary training to new owners. We are also a Pearson Testing Center, allowing for additional revenue with little effort.

PBCPR has an annual revenue of approximately \$165,000. Revenue is dependent on client need and owner hustle. Client list contains multiple repeat customers with semi-annual, annual and bi-annual training needs.

Our building is approximately 2,000 square feet on 3 city lots, about 0.40 acres in downtown Midland. A studio apartment, 50amp RV electrical and sewer hookup allow for residential opportunities (per city guidelines). A privacy fence separates the street from the apartment. Small parking lot is accessible from the alley on the side of the building.

All PBCPR and Pearson assets will be included in the sale.

Contact us for more information!
